PROFESSIONAL SUMMARY

Passionate Computer Science student at Madras Christian College with hands-on experience in full-stack web development and UI/UX design. Enthusiastic about solving real-world placement coordination challenges using modern tech stacks.

EXPERIENCE

Software Developer Intern

May 2024 - Jul 2024

Chennai Tech Labs

Collaborated on designing and writing REST APIs using Node.js, Express, and PostgreSQL.
Optimized client dashboards resulting in a 20% faster load time using Next.js Turbopack.
Worked in a 5-person Scrum team to deliver production features in weekly sprints.

Key Stack: Full-Stack Development

Technical Lead

Aug 2024 - Present

MCC Computer Science Association

Overseeing development of department websites and coding hackathon registration platforms.
Mentored 15+ juniors in web technology basics, Git version control, and database modeling.

Key Stack: Leadership & Community

ACADEMIC DETAILS

Bachelor of Science in Computer Science (UG)

2023 - 2026

Madras Christian College

GPA / Grade: 8.95 CGPA

Advanced Full-Stack Engineering & System Design Course

2023 - 2024

MCC Center for Continuing Education

GPA / Grade: Distinction (92%)

Higher Secondary School Certificate (12th)

2021 - 2023

St. Thomas Matriculation School

GPA / Grade: 94.5%

Secondary School Leaving Certificate (10th)

2019 - 2021

St. Thomas Matriculation School

GPA / Grade: 96.2%

PROJECTS & RESEARCH

Madras Christian College Portfolio Portal

<https://github.com/alwin-joseph/mcc-portfolio-portal>

An online platform built for Madras Christian College enabling students to build portfolio showcases and resume templates, while enabling placement administrators to verify profiles and extract student performance metrics.

Technologies: Next.js 16, Prisma ORM, PostgreSQL, TailwindCSS

PROJECTS & RESEARCH (CONTINUED)

E-Commerce Microservices Engine

https://github.com/alwin-joseph/ecommerce-engine

Developed a distributed payment and inventory management microservice setup communicating over RabbitMQ event buses, backed by Redis caches and MongoDB database clusters.

Technologies: Node.js, Express, RabbitMQ, MongoDB, Redis, Docker

SKILLS

React.js / Next.js (Advanced) TypeScript (Advanced) PostgreSQL & Prisma (Advanced) Node.js / Express (Intermediate)
Docker & Kubernetes (Intermediate)

LICENSES & CERTIFICATIONS

AWS Certified Developer – Associate — Amazon Web Services (AWS)	2024
Meta Full-Stack Developer Certificate — Coursera / Meta	2024

ACHIEVEMENTS

- Winner – National College Hackathon 2024 (2024) — Awarded 1st place out of 100+ competing teams for engineering an automated student audit logging tracking app in 24 hours.

LANGUAGES

English (Fluent), Tamil (Native)

TEST SCORES

Standardized Test Scores
GRE: 320; TOEFL: 110
Official Entrance & Proficiency Examinations
